

HVAC TAPES & ADHESIVE PRODUCTS

*Commercial &
Residential
HVAC Uses*

Rigid Duct Use

- *Specialized products meet UL HVAC standards.*
- *Engineered for a wide range of applications, conditions and temperature ranges.*
- *Water, smoke and mold resistant.*

CLOTH DUCT TAPES	Product No.	Description	Tensile (lb./1")	Thickness (Mils.)	Adhesion (oz./1")
	AC30	A utility contractor grade cloth tape with a rubber blend adhesive system that bonds to almost any surface. It has excellent conformability, is water resistant and tears straight. Available in silver or black. UL 723 rated for flame and smoke.	22	10	54
	AC36 AC36P	A contractor grade polyethylene coated cloth tape with an aggressive rubber blend adhesive system that bonds to almost any surface. It has good conformability, is water resistant and tears straight. Available plain and printed in silver and black. UL 723 rated for flame and smoke.	23	11	60
	AC45 AC45P	A contractor grade polyethylene coated cloth tape that features a rubber blend adhesive system. It is ideal for use in a wide variety of duct sealing applications or as a moisture barrier. Available plain and printed in silver and black. UL 723 rated for flame and smoke.	25	12	50
	AC49 AC49P	A high performance polyethylene coated cloth tape designed for applications where a metalized backing is preferred. It is ideal for minor repairs of flexible duct and reflective insulations. Available printed. UL 723 rated for flame and smoke.	24	12.5	48
	AC50	A premium grade polyethylene coated cloth tape for those requiring aggressive adhesion, high tensile strength and excellent shear characteristics. Provides excellent seals and seams for air handling systems and forms an excellent moisture barrier. Hangs and tears straight. Available in silver and black. UL 723 rated for flame and smoke.	48	14	50
	AC57	A UL 181B-FX listed polyethylene coated cloth tape designed for flexible duct applications. It offers high tensile strength, aggressive adhesion/shear properties, and resistant to flame, mold growth, high humidity and high temperatures. Available printed in silver, black and metalized.	MD = 50.7 CD = 26.6	13.7	88
	AC698B AC698C AC698M	A UL 181B-FX listed polypropylene tape designed for flexible duct applications. It is resistant to flame, mold growth, high humidity and high temperatures. A black film with white printing for better readability against any surface. The same UL 181B-FX listed polypropylene tape in a clear film with red print . The same UL 181B-FX listed polypropylene tape in a metalized film with burgundy print .	20.1	2	37

	Product No.	Description	Thickness (Mils.)	Adhesion (oz./1")	Static Shear		Minutes to Failure
					Area (sq. in.)	Load (lbs)	
FOIL TAPES	0802	A 2 mil. dead soft aluminum foil with an adhesive which provides excellent adhesion and quickstick. Used for taping joints and seams against moisture vapor on foil jacketing insulation.	7.5	126	.025 1.0	2.2 10.0	10,000 + 8,300
	0821	An FSK sealant tape with a high strength reinforced face stock and an adhesive which provides excellent adhesion and quickstick. Matches tri-directional facings.	10.5	100	.025	2.2	5,300
	0810	A foil duct board closure tape which meets UL 181A-P standards as well as the new UL 181B-FX standards. Designed to be used on duct board and flexible duct systems. Meets SMACNA Performance Standards AFTS-101-73.	7.2	60	.025 1.0	2.2 10.0	5,000 + 5,000
SPRAY	AC50 SP	Spray adhesive, specially designed to bond polyethylene to itself, as well as wood, concrete and other surfaces. Does not contain methylene chloride.	NA	NA	NA	NA	NA

Corporate Profile

A Profile of Success

Intertape Polymer Group Inc. (IPG) is a recognized leader in the development and manufacture of specialized polyolefin plastic & paper packaging products and complementary packaging systems. Headquartered in Montreal, Quebec, and Sarasota, Florida, the company has grown strategically to support operations in 21 locations including 16 manufacturing facilities, with approximately 2,800 employees.

A Family of Fine Products

IPG manufactures a broad range of packaging products that reflect the needs of both our industrial and retail customers. These include shrink film and stretch film, as well as carton sealing and shrink packaging equipment, inkjet printing systems and labeling systems. Additional products include one of the largest offerings of tape available: pressure-sensitive and water-activated carton sealing, cloth duct, double-coated, masking, HVAC, electrical/electronic, filament and high performance specialty tapes. IPG also produces a variety of woven coated fabrics and flexible intermediate bulk containers.
